My dear Mr. Wood,

I'm very much afraid I shall be unable to do any map work at the Museum this summer. I am beginning work on the thesis for my M.A. and it seems best to give that my undivided attention, while that is possible without interruption from classes and their preparation.

I want to thank you, and everyone else up there, for your kindness, first of all in allowing me to work on your coins, and, further, in making everything so pleasant. I hope I may come back to you in the fall.

With best wishes for a fine
summer and with very many
thanks,

Sincerely

Elizabeth Gudmund.
